

July 2024

Congratulations on entering your project in the Thermo Fisher Scientific Junior Innovators Challenge (JIC), a program of Society for Science. Your science or engineering project was identified as one of the best in the nation this year — only the top 10% of science fair projects are nominated for this program. You should be proud of this achievement, and for all of the hard work you put into your project during a year filled with many unique challenges.

By submitting your application, you have taken the first step in the national competition. As an entrant of the 2024 Thermo Fisher JIC, you are receiving this prize package which includes a t-shirt and bumper sticker. You are also now officially part of our alumni network!

All entries are currently under evaluation. Society for Science and Thermo Fisher Scientific will announce the Top 300 Junior Innovators on September 4 and the 30 finalists on September 18, 2024.

You will receive notification of your selection status via email. We also encourage you to visit the Society website at <https://www.societyforscience.org/jic/> for these announcements and updates.

Keep up the good work, and I hope you are having a fantastic summer!

Sincerely,

Raeva Ramadorai
Director, Thermo Fisher JIC
Society for Science
